ECOLOGY

ALL FORMS OF LIFE IN RELATION TO ENVIRONMENT

OFFICIAL PUBLICATION OF THE
ECOLOGICAL SOCIETY OF AMERICA

VOLUME 40, 1959

PUBLISHED QUARTERLY AT DURHAM, N. C.
BY THE
ECOLOGICAL SOCIETY OF AMERICA
AND THE
DUKE UNIVERSITY PRESS

ECOLOGY

A QUARTERLY JOURNAL

DEVOTED TO ALL PHASES OF ECOLOGICAL BIOLOGY

Established 1920

Editors: LaMont C. Cole (Zoology) Cornell University.
Alton A. Lindsey (Botany), Purdue University.

Review Editor: R. H. Whittaker, Brooklyn College.

Business Manager: H. J. Oosting, Duke University.

Circulation Office: Duke University Press, Box 6697, College Station, Durham, N. C.

MEMBERS OF THE EDITORIAL BOARD:

1957-59

Thomas Burnett, Dominion Parasite Laboratory, Belleville, Ontario.
Calvin J. Heusser, Department of Exploration and Field Research, American Geographical Society, New York, N. Y.
Jack Major, Department of Botany, University of California, Davis, California.
Jerry Olson, Connecticut Agricultural Experiment Station, New Haven, Connecticut.
John H. Ryther, Woods Hole Oceanographic Institution, Woods Hole, Massachusetts.
Donald Wohlschlag, Department of Biology, Stanford University, Stanford, California.

1958-60

Nicholas E. Collias, Department of Zoology, University of California, Los Angeles, California
W. T. Edmondson, Department of Zoology, University of Washington, Seattle, Washington
Robert R. Humphrey, Department of Range Management, University of Arizona, Tucson, Arizona
Howard T. Odum, Institute of Marine Science, Port Aransas, Texas
John F. Pelton, Department of Botany, Butler University, Indianapolis, Indiana
Philip B. Whitford, Department of Botany, University of Wisconsin-Milwaukee, Milwaukee, Wisconsin

1959-61

Willis A. Eggler, Newcomb College of Tulane University, New Orleans, Louisiana
John A. King, Jackson Memorial Laboratory, Bar Harbor, Maine
Robert W. Pennak, Department of Biology, University of Colorado, Boulder, Colorado
Elroy L. Rice, Department of Plant Science, University of Oklahoma, Norman, Oklahoma
Frederick E. Smith, Department of Zoology, University of Michigan, Ann Arbor, Michigan
Forest W. Stearns, Southern Forest Experiment Station, U. S. Forest Service, Vicksburg, Mississippi

Ex officio members: H. J. Oosting, Duke University, Durham, North Carolina, and Francis C. Evans, University of Michigan, Ann Arbor, Michigan (the editors of Ecological Monographs).

Correspondence concerning editorial matters should be addressed to the appropriate Editor at the address given in the inside first cover. Books and papers for review should be sent to the Review Editor, Dr. R. H. Whittaker, Department of Biology, Brooklyn College, Brooklyn 10, New York.

Subscription price in the United States, Canada, and the Pan-American countries, $7.50 net a year for complete volumes (January-October); other foreign countries—$.60 a year additional for postage. Parts of volumes are to be had only at the single copy rate. Current single copies, $2.00. Back volumes, as available, $10.00 each plus postage. Back single issues, $2.50.

Missing numbers will be supplied free when lost in the mails if written notice is received within one month of the date of issue of the next succeeding number.

Remittances for subscriptions should be made payable to Duke University Press.

Remittances for dues should be made payable to the Ecological Society of America.

Business correspondence, including subscriptions, change of address, back numbers, and discontinuances, should be addressed to Circulation Office, Duke University Press, Box 6697, College Station, Durham, N. C. Correspondence regarding payment of dues in the Ecological Society should be addressed to the Treasurer, J. S. Dendy, Department of Zoology and Entomology, Alabama Polytechnic Institute, Auburn, Alabama.

Entered as Second Class Matter at the Post Office at Durham, North Carolina

TABLE OF CONTENTS, VOLUME 40, 1959

LOVELESS, CHARLES M. A study of the vegetation in the Florida Everglades 1– 9

BRINK, V. C. A directional change in the subalpine forest-heath ecotone in Garibaldi Park, British Columbia 10– 16

BILLINGS, W. D., AND H. A. MOONEY. An apparent frost hummock-sorted polygon cycle in the alpine tundra of Wyoming 16– 20

KOLLER, D., AND M. NEGBI. The regulation of germination in *Oryzopsis miliacea* 20– 36

DIX, RALPH L. The influence of grazing on the thin-soil prairies of Wisconsin 36– 49

BOYD, WILLIAM L. Limnology of selected arctic lakes in relation to water supply problems 49– 54

TISDALE, E. W., M. HIRONAKA AND W. L. PRINGLE. Observations on the autecology of *Hypericum perforatum* 54– 62

BOURDEAU, PHILIPPE F. Seasonal variations of the photosynthetic efficiency of evergreen conifers 63– 67

GOREAU, THOMAS F. The ecology of Jamaican coral reefs. I. Species composition and zonation 67– 90

KLOPFER, PETER H. An analysis of learning in young anatidae 90–102

COOK, SHERBURNE F., JR. The effects of fire on a population of small rodents 102–108

ALLEN, GEORGE H. Behavior of chinook and silver salmon 108–113

KNUDSEN, JENS W. Shell formation and growth of the California xanthid crabs 113–115

MATURO, FRANK J. S., JR. Seasonal distribution and settling rates of estuarine bryozoa 116–127

INGER, ROBERT F. Temperature responses and ecological relations of two Bornean lizards 127–136

DAVIS, DAVID E. The sex and age structure of roosting starlings 136–139

OGILVIE, R. T., AND THOMAS FURMAN. Effect of vegetational cover of fence rows on small mammal populations 140–141

MOORE, C. W. E. The competitive effect of *Danthonia* spp., on the establishment of *Bothriochloa ambigua* 141–143

FOSBERG, F. R. Upper limits of vegetation of Mauna Loa, Hawaii 144–146

ARNOLD, CHESTER A. Some paleobotanical aspects of tundra development 146–148

POTTER, LOREN D. Increment boring containers 148

BOURDEAU, PHILIPPE F., AND HENRY J. OOSTING. The maritime live oak forest in North Carolina 148–152

WOOD, R. D. A naturally occurring visible thermocline 152

WELLS, PHILIP V. Comments on "Plant Ecology as a Branch of Botany" 153

WEBER, NEAL A. Isothermal conditions in tropical soil 153–154

HUBBS, CLARK. High incidence of vertebral deformities in two natural populations of fishes inhabiting warm springs 154–155

SOUTHWICK, CHARLES H. Eosinophil responses of C57BR mice to behavioral disturbance 156–157

MYERS, CHARLES W. Circumstantial evidence indicating a population shift of the lizard *Lygosoma,* in eastern Missouri 157–158

ROPPEL, ALTON Y., AND CHARLES R. WEAVER. A device for separating salmon fry of unequal size 158

MCCLARY, ANDREW. The effect of temperature on growth and reproduction in *Craspedacusta sowerbii* 158–162

KANNOWSKI, PAUL B. The use of radioactive phosphorus in the study of colony distribution of the ant *Lasius minutus* 162–165

FLANDERS, STANLEY E. Areas of discovery in the *Ephestia-Idechthis* ecosystem delimited by vermiculite 165

TURNER, FREDERICK B. Some features of the ecology of *Bufo punctatus* in Death Valley, California 175–181
NIELSEN, ERIK TETENS, AND HEDVIG TETENS NIELSEN. Temperatures preferred by the pierid *Ascia monuste* L. 181–185
ABEL, DANA L. Observations on mosquito populations of an intermittent foothill stream in California 186-193
BRONSON, FRANKLIN H., AND OTTO W. TIEMEIER. The relationship of precipitation and blacktailed jack rabbit populations in Kansas 194–198
LOVE, G. J. AND MELVIN H. GOODWIN, JR. The effect of natural winter temperatures on development of *Anopheles quadrimaculatus* 198–205
LAIRD, MARSHALL. Parasites of Singapore mosquitoes, with particular reference to the significance of larval epibionts as an index of habitat pollution 206–221
PATTEN, BERNARD C. An introduction to the cybernetics of the ecosystem: the trophic-dynamic aspect 221–231
SLOBODKIN, L. BASIL. Energetics in *Daphnia pulex* populations 232–243
BESS, HENRY A. AND FRANK H. HARAMOTO. Biological control of pamakani, *Eupatorium adenophorum,* in Hawaii by a tephritid gall fly, *Procecidochares utilis.* 2. Population studies of the weed, the flu, and the parasites of the fly 244–249
PEARSON, PAUL G. Small mammals and old field succession on the piedmont of New Jersey 249–255
RAY, RAYMOND J. A phytosociological analysis of the tall-grass prairie in northeastern Oklahoma 255–261
FRITTS, HAROLD C. The relation of radial growth to maximum and minimum temperatures in three tree species 261–265
DITTMER, HOWARD J. A study of the root systems of certain sand dune plants in New Mexico 265–273
COOKE, WM. BRIDGE. Trickling filter ecology 273–291
WOODS, F. W., H. C. HARRIS AND R. E. CALDWELL. Monthly variations of carbohydrates and nitrogen in roots of sandhill oaks and wire grass 292–295
WINN, HOWARD E., AND JOHN E. BARDACH. Differential food selection by moray eels and a possible role of the mucous envelope of parrot fishes in reduction of predation 296–298
MARSHALL, NELSON. Oyster set obtained in the Niantic River, Connecticut, on cultch buoyed near the surface 298
CHIPMAN, ROBERT K. Studies on the tolerance of certain freshwater fishes to brine water from oil wells 299–302
DOUTT, RICHARD L. Distribution of eggs by *Microbracon* (Hymenoptera, Braconidae) .. 302–303
RAGOTZKIE, ROBERT A. Mortality of loggerhead turtle eggs from excessive rainfall 303–305
BURT, WAYNE V., W. BRUCE MCALISTER, AND JOHN QUEEN. Oxygen anomalies in the surf near Coos Bay, Oregon 305–306
REISH, DONALD J. A discussion of the importance of the screen size in washing quantitative marine bottom samples 307–309
CHIANG, H. C. A note on some mortality factors of the European corn borer, *Pyrausta nubilalis* 310–312
MAGUIRE, BASSETT, JR. Passive overland transport of small aquatic organisms 312
CZARNOWSKI, MACIEJ, AND JAN SLOMKA. Some remarks on the percolation of light through the forest canopy 312–315
MCCLUNG, A. C., AND L. M. MARTINS DE FRIETAS. Sulfur deficiency in soils from Brazilian campos 315–317
ISAAK, DANIEL, WILLIAM H. MARSHALL, AND MURRAY F. BUELL. A record of reverse plant succession in a tamarack bog 317–320
WOODIN, HOWARD E. Establishment of a permanent vegetational transect above timberline on Mt. Marcy, New York 320–322

VERDUIN, JACOB. Use of an aerated reference sample when measuring dissolved carbon dioxide ... 322–323
BYER, M. D., J. E. CANTLON, AND C. W. WETMORE. A punch card technique for studying species and species-environment associations ... 323–324
JOHNSEN, THOMAS N., JR. An epiphytic prickly-pear cactus ... 324
COOK, DAVID B., AND RALPH H. SMITH. A white spruce outlier at Shushan, New York ... 333–337
MOORE, C. W. E. The nutrient status of the soils of some natural plant communities on the southern tablelands of New South Wales ... 337–349
WOODS, FRANK W., AND ROYAL E. SHANKS. Natural replacement of chestnut by other species in the Great Smoky Mountains National Park ... 349–361
COTTAM, WALTER P., JOHN M. TUCKER, AND RUDY DROBNICK. Some clues to Great Basin postpluvial climates provided by oak distributions ... 361–377
VERDUIN, JACOB. Photosynthesis by aquatic communities in northwestern Ohio ... 377–383
HEASLIP, MARGARET B. Effects of seed irradiation on germination and seedling growth of certain deciduous trees ... 383–388
BILLINGS, W. D., AND L. C. BLISS. An alpine snowbank environment and its effects on vegetation, plant development, and productivity ... 388–397
MOORE, WALTER G. Observations on the biology of the fairy shrimp, *Eubranchipus holmani* 398–403
HAIRSTON, NELSON G. Species abundance and community organization ... 404–416
HIRTH, HAROLD F. Small mammals in old field succession ... 417–425
NEESS, JOHN, AND RICHARD C. DUGDALE. Computation of production for populations of aquatic midge larvae ... 425–430
HARRINGTON, ROBERT W., JR. Delayed hatching in stranded eggs of marsh killifish, *Fundulus confluentus* ... 437–447
WILSON, EDWARD O. Some ecological characteristics of ants in New Guinea rain forests ... 430–437
JENSEN, PAUL. Fit of certain distribution functions to counts of two species of cryptozoa 447–453
NAYLOR, ALFRED F. An experimental analysis of dispersal in the flour beetle, *Tribolium confusum* ... 453–465
NEEDHAM, PAUL R., AND ALBERT C. JONES. Flow, temperature, solar radiation, and ice in relation to activities of fishes in Sagehen Creek, California ... 465–474
FOREST, HERMAN S., DAN L. WILLSON AND ROBERT B. ENGLAND. Algal establishment on sterilized soil replaced in an Oklahoma prairie ... 475–477
JACKSON, L. W. R. Relation of pine overstory opening diameter to growth of pine reproduction ... 478–480
REUKEMA, DONALD L. Missing annual rings in branches of young-growth Douglas-fir ... 480–482
MCINTOSH, ROBERT P. Presence and cover in pitch pine—oak stands of the Shawangunk Mountains, New York ... 482–485
KUCERA, C. L. Weathering characteristics of deciduous leaf litter ... 485–487
JOHNSEN, THOMAS N., JR. Longevity of stored juniper seeds ... 487–488
MCMILLAN, CALVIN. The concept *vegetation* and the comfortable ecologist ... 488–490
CURRY, S. J., AND J. F. GRIFFITHS. Temperature changes within cypress logs in the Kenya highlands ... 490–491
LOWRY, WILLIAM R. On the use of mathematical notation in ecological literature ... 492
KRAUSE, H. H., S. RIEGER, AND S. A. WILDE. Soils and forest growth on different aspects in the Tanana Watershed of interior Alaska ... 492–495
SIEGEL, H. S. The relation between crowding and weight of adrenal glands in chickens ... 495–498
EDGREN, RICHARD A. Coquinas (*Donax variabilis*) on a Florida beach ... 498–502
REISH, DONALD J. Modification of the Hayward orange-peel bucket for bottom sampling ... 502–503
BOVBJERG, RICHARD V. Density and dispersal in laboratory crayfish populations ... 504–506
MAGUIRE, B., JR. Aquatic biotas of teasel waters ... 506

DEXTER, RALPH W. Records of the sea-side isopod, *Ligia oceanica,* at Cape Ann, Massachusetts ... 507
BURBANCK, W. D. The distribution of the estuarine isopod, *Cyathura* sp., along the eastern coast of the United States ... 507–511
PHELPS, AUSTIN. Effect of visible light on the growth of *Tetrahymena pyriformis* ... 512–513
PARKER, RICHARD A. *Simocephalus* reproduction and illumination ... 514
PENN, GEORGE HENRY. Survival of branchiobdellid annelids without a crawfish host ... 514–515
SHULOV, A., AND A. WEISSMAN. Notes on the life habits and potency of the venom of the three *Latrodectus* spider species of Israel ... 515–518
PIMENTEL, DAVID, AND PAUL C. WHITE, JR. Physiochemical environment of *Australorbis glabratus,* the snail intermediate host of *Schistosoma mansoni* in Puerto Rico ... 533–541
PIMENTEL, DAVID, AND PAUL C. WHITE, JR. Biological environment and habits of *Australorbis glabratus* ... 541–550
